Installation & Service Engineer

Installation & Service Engineer – Maritime
Location: Rotterdam
Full-time job
A versatile technical job where you pull out all the stops to provide our customers with the best solutions! Step aboard at Alphatron Marine!

What will you be doing?
As an Installation & Service Engineer, you will go on board ships or perform work in a building at a client's location on land. The vessels you will be dealing with may be inland waterway, seagoing, or fishing vessels. However, it is also possible that you will go to an offshore platform. Naturally, you will first receive thorough training. When you have finished your job, you will discuss what you have done with your client. Is the client satisfied? Then you are satisfied too! Ideally, you already have some experience, but you are also very welcome without experience. We are happy to train you. You must not be afraid of heights, as you will occasionally need to work at heights.

Your tasks in brief:
• Maintenance, repair, and installation of PMR (Private Mobile Radio) equipment and networks, including: two-way radios, base stations, transmitters, telephone exchanges, and PA systems, on-site at the customer's location
• Resolving first-line equipment malfunctions
• Programming, testing, and delivering the equipment
• Implementing customer-specific solutions at the customer's location
• Willingness to travel abroad
• Administrative tasks, such as recording work activities, time tracking, and creating backups

Who are you?
• You hold at least an MBO level 3 diploma in the field of IT, Electrical Engineering, Mechatronics, or Telecommunications
• VCA Basic Safety diploma or willingness to obtain this diploma
• Experience in data and telecommunications is a plus
• You are up to date with the latest developments in the field of IT regarding IP technology
• You have strong communication skills
• You speak and write English well
• You are analytically strong, stress-resistant, and you are honest and accurate
• You have a “Working at Height” certificate or are willing to obtain this certificate
• Driving license (B)

What do you get in return?
• Employment conditions commensurate with your responsibilities;
• A company car that you may also use privately;
• Overtime pay and the possibility to compensate time;
• Expense allowance;
• A minimum of 32 vacation days;
• Possibility to purchase extra leave days;
• Access to online training courses related to your personal development;
• A good pension scheme for which you, as an employee, pay a low contribution;
• Fun activities are organized regularly.

Then send your CV and cover letter! Do you have any questions first? You can always

contact the Human Resources department at telephone number 010-4534000 or via the email address HR@alphatronmarine.com.

Let us introduce ourselves: we are Alphatron Marine

Alphatron Marine is a renowned supplier of integrated bridge solutions, representative of the leading brands in the industry, and producer of unique complementary products to the Japan Radio Company Ltd (JRC) portfolio. We are an importer, supplier, installer, and service provider of navigation and communication equipment for the maritime industry. With our headquarters in Rotterdam and various offices spread across Europe, North America, Curaçao, Korea, and Singapore, we always strive to stay close to our customers.

We are here to help companies with innovative solutions that better align with today's technology and capabilities. We create solutions that the market demands and that ships need. We are Alphatron Marine. Alphatron Marine is an equal opportunities employer. We are strongly convinced that employing a diverse workforce is central to our success. We make recruitment decisions based on your experience and skills.

We prefer to recruit in-house and do not work with recruitment agencies.
