Installation & Commissioning Engineer - Inland Shipping

Do you have a passion for technology and dream of a job full of adventure?

Installation & Commissioning Engineer – Inland Shipping

Location: Rotterdam

Your mission as an Installation & Commissioning Engineer

At Alphatron Marine, you make a real impact. You ensure that our high-tech systems work flawlessly on board ships. No day is the same: one moment you are working on a ship under construction, the next you are modifying systems on an existing vessel. You are a key player in our team and make the maritime world smarter and safer.

What will you be doing?

• You install and commission navigation and communication equipment, both in the workshop and on board. • Every job starts with a clear briefing, so you know exactly what needs to be done.

• You will visit the most unique places on board: from high masts to compact technical rooms.

• During larger projects, you are the point of contact for the client and keep everything tightly organized.

• You travel to unique locations, both in the Netherlands and abroad – no place is too far for you!

Who are we looking for?

Are you that energetic technician who tackles every challenge head-on? Then you are a perfect fit for us!

What we ask of you:

• An MBO diploma (level 3/4) in electrical engineering.

• Interest in ships, technology, and travel – you are ready to discover the maritime world!

• Willingness to learn and obtain your certificates (VCA, Working at Height).

• A driver's license (B), so you can get anywhere.

• You speak and write Dutch and English well.

• You are persistent, stress-resistant, and always maintain an overview.

• Customers appreciate your friendly and professional approach.

What makes this job unique?

At Alphatron Marine, you step into a world full of innovation, adventure, and growth.

This is what we offer you:

• A good salary and a pension scheme with a low personal contribution.

• A company car that you may also use privately.

• Fully funded training to become a specialist in maritime electronics.

• A minimum of 32 vacation days

• Overtime pay and the option to offset your hours.

• Access to online training and plenty of room for personal development.

• Fun team activities and a pleasant, informal working atmosphere.

Why choose Alphatron Marine?

We are a leading name in the maritime world. Our innovative navigation and communication systems make ships smarter and safer. With our headquarters in Rotterdam and offices worldwide, we work together to help our customers grow. With us, you become part of a close-knit team that is passionate about technology and shipping. Together, we create solutions that make a difference! Alphatron Marine is an equal opportunities employer. We are strongly convinced that employing a diverse workforce is

central to our success. We make recruitment decisions based on your experience and skills.
